ABOUT US

The Texas A&M Cybersecurity Club is a student-run organization committed to equipping its members with the skills and knowledge necessary to become effective cybersecurity professionals and future industry leaders. We actively participate in competitions such as NCL, CCDC, Hivestorm, CyberForce, and CPTC, where members gain valuable hands-on experience and exposure to real-world cybersecurity challenges.

We also host a student-led Capture the Flag (CTF) competition in the fall semester. Our CTF competition focuses on fostering cybersecurity education and engagement for participants at various skill levels. These events provide interactive and educational experiences designed to inspire the next generation of cybersecurity experts.

In addition to competitions, our club holds activity groups focused on various topics outside our general meetings. These groups, Cyber Operations, Hardware Hacking, Cisco Networking, AWS Academy, Palo Alto Academy, and Red Hat Academy, allow members to expand their technical knowledge and skills in specific areas. By participating in these groups, students can deep-dive into specialized cybersecurity topics and enhance their practical abilities

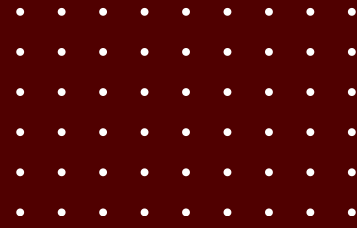

PARTNERSHIP

Our goal as an organization is to equip our members with the skills and knowledge necessary to become effective cybersecurity professionals and future industry leaders. A key way we achieve this is through strong partnerships with companies and industry leaders. These partnerships provide our students with real-world insights and help them make informed decisions about their career paths.

We believe that hearing from professionals across various sectors of the cybersecurity industry offers our members unique perspectives that greatly benefit their career development.

SPONSORSHIP

Tier	Sponsorship Amount	Benefits
Gold	\$2,000+	<ul style="list-style-type: none">- Host a dedicated recruitment event- Priority scheduling for events- All benefits from lower tiers
Silver	\$1,500	<ul style="list-style-type: none">- Host a technical workshop or meet-and-greet event- Access to our club's resume bank- All benefits from lower tiers
Bronze	\$1,000	<ul style="list-style-type: none">- Recognition on club T-shirts- Mailing list access- Recognition on our club website

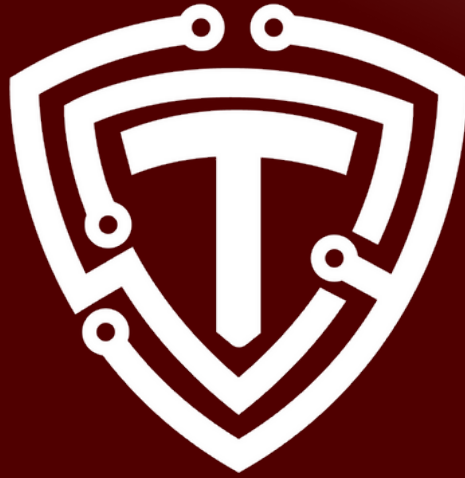

Note: Sponsorship tiers are valid for two academic semesters. A guest speaker presentation does not require a sponsorship tier purchase.

IMPACT

Since its founding, the Texas A&M Cybersecurity Club has made significant strides in fostering cybersecurity talent:

- **Competition Success:** Our members have consistently ranked in top positions at NCL, CCDC, and other major competitions, showcasing their growing expertise.
- **Alumni in Industry:** Our alumni have gone on to work at notable companies and government agencies, including Amazon Web Services, Apple, and the Department of Defense.
- **Member Development:** We've provided students with the resources and support needed to prepare for industry-recognized certifications, such as the CompTIA Security+ and CCNA. We helped many land cybersecurity internships. We also offer study groups and guidance to assist members in their certification journey and career development.
